Comments

10/17/2012 01:58 PM Michael Ray The affinity-purified version of this antibody reduces IF/IHC background greatly (See RES4551). The raw antibody be useful for other applications [ChIP/ChIP-Seq, flow cytometry, western blots]. Antigen was a bacterial GST fusion protein originally made by Palle Serup (Jensen et.al. (1996) J Biol Chem 271:18749-58).
